NAVIGATION BULLETIN NO. 08-16

NOTICE TO NAVIGATION INTERESTS:

## **BLACK WARRIOR AND TOMBIGBEE RIVER SYSTEM**

Notice is given to mariners that Mammoet USA, Inc. will be rolling off equipment at the Hunt Oil dock, Mile Marker 337.0, between May 2 & 6, 2008. These unloading operations are expected to take approximately 4 hours each day. As more information becomes available, an updated bulletin that identifies more specific dates will be issued.

**Channel Restricted:** During the initial part of these operations, the 260 foot deck barge and 65 foot tow boat will restrict the channel by a total length of 325 feet perpendicular to the bank. Once the barge is secured, the tow boat will move, reducing the channel restriction to 260 feet. At the conclusion of operations each day, the barge and tow boat will be moored parallel to the dock. The tow boat will monitor marine channel 16 during all operations.

For further information concerning this matter, please contact Mr. Michel Booden, Project Manager, Mammoet USA, Inc. at (281) 595-2738 or (281) 726-0991.

DUANE B. POIROUX  
Chief, Navigation Section
